

### Durable and lightweight temporary wall system from Duramax allows for rapid deployment of temporary rooms and isolation spaces

The free-standing modular PVC panels come ready to assemble allowing for a clean and fast setup with no dust or debris. The non-porous smooth panels are easy to clean and maintain, heavy-duty and impact resistant—designed to withstand the most demanding environments.

With many configurations possible, quickly and easily divide your existing internal space to suit your needs. Install as a single standalone barrier, combined continuously to create a linear wall, or at a 90 degree angle to create individual spaces.

#### Features & Benefits:

- Coated with Microban Aegis Microbe Shield, an antimicrobial surface treatment that molecularly bonds to the surface making it inhospitable to germs.

Microban Aegis Microbe Shield Ratings:

- Health Canada PMRA PCP#15133
- US EPA # 64881-2
- Modular system allows easy, clean, and rapid deployment and installation.
- Non-porous surface, easy to sanitized if needed.
- Lightweight and strong panels for easier transport, assembly, and reconfiguration.
- Environmentally sustainable – 100% recyclable with zero cut-off waste.
- UV stabilizers prevent discoloring and cracking.
- Multiple configurations possible with multiple packs.
