Follow the ABC Wall Assembly Steps illustrations below:

**A)** Lay Flat the wall panels on a clean non-porous floor or with a drop cloth.

**B)** Insert the Top U-Channel on either side of the wall panels and drive in the screws to the predrilled holes as illustrated below. With Top U-Channel installed, one wall end will be flushed out, the other end is flushed in.

**C)** Mount the 2 Foot Plates at the bottom of the wall panels.
Temp Wall Multiple Configurations Assembly Steps

Tools Required:
- Cordless Drill
- 2 person for assembly
- 2 Foot Plates
- 2 Standard Top/Bottom Clips
- 1 T-Style Clip
