

MANUFACTURER'S CERTIFICATION OF COMPLIANCE
Build America, Buy America Act (BABA)

1. Manufacturer Information

Manufacturer	US Polymers Inc.
Brand	Duramax PVC Panels
Manufacturing Facility	5910 Bandini Blvd, City of Commerce, California 90040, USA
Contact	Karnig Keledjian, Plant manager, 323 728 3023, Karnigk@uspolymersinc.com

2. Applicable Requirement

Buy America Preference of the Build America, Buy America Act, Public Law 117-58, Sections 70901 through 70927, and the implementing guidance at 2 CFR Part 184. The products below are construction materials in the category of plastic and polymer-based products, which must meet the standard in 2 CFR 184.6(a)(2): all manufacturing processes, from the initial combination of constituent plastic or polymer-based inputs until the item is in its final form, occur in the United States.

3. Products Covered

Product	Description	Material Category
Duramax PVC Wall and Ceiling Panels	Interlocking PVC liner panels, 0.5 inch thick	Plastic and polymer-based product
Duramax SlatWall Panels	Interlocking PVC storage wall panels	Plastic and polymer-based product
Duramax PVC Trim	PVC trim profiles supplied with Duramax panels	Plastic and polymer-based product

4. Statement of Compliance

US Polymers Inc. certifies that the products listed in Section 3, when supplied for projects that require BABA compliance, are produced in the United States under 2 CFR 184.6(a)(2). Compounding and extrusion of these panels and trims take place at our manufacturing facility in the City of Commerce, California, USA. The PVC resin used in these products is produced in the United States.

5. Items Not Covered

Fasteners, adhesives, sealants, tools, and any product not listed in Section 3 are not covered by this certification.

6. Records

US Polymers keeps records supporting this certification and will provide them to the project owner or funding agency on request.

7. Certification

I certify that the information in this document is true and accurate.
